Thank You!

Morning shifts are **indoors**, mostly sitting.

Afternoon shifts are **outdoors**, mostly walking.

All volunteers and instructors must
go through a background check.

**Please mail completed registration form(s)
and check (payable to Brevard College) to:**

Brevard College
Beth Banks, Campus Adventures
One Brevard College Drive
Brevard, NC 28712

The purpose of Campus Adventures is to provide an educational opportunity for motivated students entering first-seventh grades who want to participate in the learning process, broaden their perspectives and are willing to explore new ideas.

It is our desire to spark the creative and inquiring spirit in each child and to instill a love of learning and an understanding that education is a lifelong process.

The program is offered as a summer enrichment experience in an educational setting.

Camp will conclude with a special presentation at noon on Friday.

Important information:

Camp Packets will be mailed by July 1st.
(confirmation letters, receipts, waivers and schedules)

Cancellations must be made by June 25th.
No refunds will be given after this deadline.

Summer Enrichment
Experience

Campus Adventures

July 9-13
2018

Art, Science,
Music, Nature,
FUN!

Campus Adventures (Monday-Friday 8:30 a.m. -12:00 p.m.)

Choose one class for each time slot, according to rising grade level. Students must stay within their grade level for class choices (no cross-overs).

1st-2nd Graders

8:30-9:30

Animal World

Steve O'Neil

Investigate the world of reptiles, amphibians, mammals, bugs and birds. Many animals will visit the class. Can you guess which ones?

Craft Corner

Casey Whitmire

Come explore your creative side with fun and exciting arts and crafts. Possible projects include pottery, painting, drawing, and sculpture.

9:45-10:45

Bugs!

Liz Hill

Bugs come in all shapes, sizes, and colors. Learn fun facts about the creepy-crawlies that live in your backyard and discover the exciting world of insects!

Super Science

Josh Rood

Discover hands-on science fun using everyday household items. Make your own slime, launch rockets, discover cool chemical reactions while learning about the natural world.

11:00-12:00

Harmonica Jam

Charlie Story

Come join the fun playing some down-home tunes on a harmonica, a simple instrument everyone can play. You will receive your very own harmonica and music book.

Heroes!

Haley Putnam

What is a HERO? There are superheroes and everyday heroes (and even hero sandwiches). We will meet a few heroes in class and learn about how they help people. Who is your hero?

Afternoon Adventures (Monday-Thursday 12:00-3:00 p.m.)

1st-7th Graders

Extend your Campus Adventure!

Campers will rotate between stations with their group. Bring sunscreen, footwear for wading, bag lunch and water bottle. We will eat lunch outside if the weather is nice. Afternoon Adventures campers will receive a T-shirt to wear on the last day of camp.

"Stream Play" Play in the cool, clear water of King's Creek, go on a creek hike, get wet and just have fun!

"Life in a Stream" Explore the visible and the invisible. We will use stream viewers to see what lies beneath the ripples, and nets to hunt for crawdads and other critters, and view this hidden world through a microscope.

"Game Time" Traditional, new and creative field games and activities! Kickball, croquet, bocce, Muggle Quidditch, hoop games, and more!

These are outdoor/rain-or-shine sessions, the only reason we will have indoor sessions is for thunderstorms.

***Campers must be enrolled in Campus Adventures to sign up for Afternoon Adventures.**

3rd-4th Graders

8:30-9:30

Super Science

Josh Rood

Discover hands-on science fun using everyday household items. Make your own slime, launch rockets, discover cool chemical reactions while learning about the natural world.

Bugs!

Liz Hill

Bugs come in all shapes, sizes, and colors. Learn fun facts about the creepy-crawlies that live in your backyard and discover the exciting world of insects!

9:45-10:45

Craft Corner

Casey Whitmire

Come explore your creative side with fun and exciting arts and crafts. Possible projects include pottery, painting, drawing, and sculpture.

Fun with Magic

Tim Arem

Perform fabulous feats of amazing magic with ordinary objects. Magic boasts self-esteem, develops dexterity and enhances self-confidence.

11:00-12:00

Coding

Deanna Campbell

Coding is the language of computers. Join us on a technological adventure with engaging and fun games to help you discover the world of coding.

Animal World

Steve O'Neil

Investigate the world of reptiles, amphibians, mammals, bugs and birds. Many animals will visit the class. Can you guess which ones?

5th-7th Graders

8:30-9:30

Mindful Expressions

Gabrielle Wirth

Explore mehndi art and mindful movements. Begin with stretching through some fun yoga poses then stretch your creativity by creating your own temporary tattoos with all natural henna!

Fun with Magic

Tim Arem

Perform fabulous feats of amazing magic with ordinary objects. Magic boasts self-esteem, develops dexterity and enhances self-confidence.

9:45-10:45

Animal World

Steve O'Neil

Investigate the world of reptiles, amphibians, mammals, bugs and birds. Many animals will visit the class. Can you guess which ones?

STEAM

Deanna Campbell

Go on a STEAM Adventure! Participate in activities that revolve around the concepts of Science, Technology, Engineering, Art, and Math! This session will include challenges for designing, building, modifying, and coding. Be ready to think creatively and work together to problem-solve!

11:00-12:00

Bugs!

Liz Hill
