You will no longer receive security patches, tax table updates, or help from Intuit. This matters because using unsupported software puts your business at risk and makes it harder to stay compliant with payroll and tax laws. **End of Automatic Updates** – QuickBooks Payroll will no longer receive automatic software or security updates.

**Payroll Services Termination** – Services like tax table updates will stop after the discontinuation date.

**Customer Support Ends** – Intuit support for older Payroll versions will no longer be available.

**Security Risks** – Without updates, your software becomes more vulnerable to security threats.

**Compliance Issues** – You may fall out of compliance with updated tax and payroll regulations.
